## *"I Am A Nurse"*

I am a nurse-That gives me pride-A pride beyond all  
measure  
And happiness down deep inside- That makes my work  
a pleasure  
There may be, in some other field, a greater cash  
attraction  
But none, I'm sure, could ever yield, my inner  
satisfaction  
I greet each day the rising sun, with never failing  
nerve  
For I will know, when work is done, the joys of those  
who serve  
I know, too, that distress and pain are suffered for  
a spell  
But realize that soon again, by far the most get well  
I hear the newborn babe's first cry- Real music of  
the best  
I watch happy mother's eyes- while she gives her  
breast  
I watch the raging fever drop- as modern drugs take  
hold  
And see the tears of loved ones stopped- as good news  
we unfold  
And I've been loved by many men- for men love those  
who tend them  
And though that love was fleeting then, and fickle,  
I'll defend them  
As well as others who forgot- my ministrations to  
them  
I'm grateful that it was my lot to render kindness due  
them  
I've spent the black hours of the night holding a  
fevered hand  
To help those in their flight makes one feel big and  
grand  
We cannot always save their lives, despite the care  
we bring  
But I learned, when that time arrives, in death there  
is no sting  
So, when my hour-glass sand runs low, I'll tread that  
final mile  
With joyful, eager steps, though slow-To meet him with  
a smile

## *Class Prophecy*

Oh! Crystal ball may I see plainly tonight what the 1958 graduating class of James Walker will be doing twelve years from now, so that I may give them a word of encouragement and hope.

The ball is clearing up, I am beginning to see dear old James Walker Memorial Hospital. Oh, how wonderful, I'm so excited! There is Dorothy Aldridge and congratulations are in order for her. She has been appointed Director of Nurses, and now I see her assistant. My word, if it isn't Doris Jenkins Gray. Who is that with Doris? Well if it isn't Merle Murray with her twins. It seems she has brought them to have their tonsils out. Brad must have struck an oil well, I see Merle is wanting Nadean Phelps to do private duty with them. However Mrs. Phelps is not practicing now. How about it Dean, boy or girl? Mrs. Murray then requested that Barbara Henderson who is also doing private duty, take care of her little darlings.

Gosh, the ball is getting cloudy again and I was having such fun. Wait, the cloud is passing and I see Dix Hill. There is Barbara Jones Pulley and Aleine Mathis Hill coming out the door together. Aleine is telling Barbara about Junior and Mary writing all over her newly painted walls, and Barbara says she doesn't have much trouble with her four months old Ann writing on walls. Now they have met Romona Atkins Pollard. It seems she and Linda Bradsher are doing Public Health Nursing.

The crystal ball is now taking me to Beaufort Grammar School where I see Ada Taylor as the school nurse. She says she enjoys her work, especially since she can keep an eye on her three little boys.

Oh, it seems the crystal ball is filling up with water. Now, it is disappearing and I can see two bathing beauties lying on the sands of Waikiki Beach in Hawaii. It is difficult to see them for the male admirers. But I think, yes, now I know, it is Bonnie Brown and Annette Gore. Boy is that the life. They work only five days a week in the Military Hospital and then loaf!

The crystal ball has now switched to Germany where I see Nell and Curtis Ward. They have made Germany their home, and from what I can see in the crystal ball it is because they can't afford to bring their six children back to the states.

It seems this class was very broad minded, for now we are in Japan. Here I see Bernadette Dixon in her beautiful Air Force blues. She is now married to her Marine, Muriel Vandervier.

This is the "travelingest" crystal ball I think I've ever seen. Now I see Lois Pierce Williamson has given up nursing all together. She is out under a tobacco barn shelter, (she married a farmer) and let me see, I think I see a little woman with three small children coming up the road. Yes it is Bobbie Medlin with her triplets. Seems she is still waiting for Ken's ship to come in. Poor thing, she was doing the same thing when we were students.

Oh! It is getting cold and the crystal ball is filling up with snow. I see some strange place that looks like mars. No it is Alaska! My the Eskimos are many around the large Iglo in the back ground. Well what do you know! It is Doris Starling Batson and Martha Howard Russ with all their little Eskimos. Seems the Army finally got Ernest and Kenneth.

The crystal ball is clouding, but oh, crystal ball let me see what the future holds for our two other classmates. I now see Dot Coleman with Bill. They have made their home in the hills of Tennessee. I see their three children playing with the mountain goats.

Well, it seems that Janice Albertson has finally convinced Bill it is time to settle down and raise a family. As a matter of fact I think I hear wedding bells!

The light is out, it is dark now and the crystal ball has vanished. I must go, but I will return in twelve years to see if I am dreaming or if this is all true.

CLASS PROPHETS:  
Nell Ward  
Bobbie Medlin

# *Class History*

Sometime during the week of September 19, 1955 twenty-five of us arrived at James Walker, one by one, after winning the battle with Hurrican Ione. Our "big sisters" came by to welcome us and gave us the "lowdown" on nursing life.

The first week was a whirl, (we've been whirling ever since) of a pajama party, a movie, a tea, a weiner roast, and a slew of new names and faces. At night the older students would come by and relate such wierd tales of life in the hospital that some of us considered going home.

Proudly wearing our first uniforms, lab coats, we went on duty for the first time that week, not knowing where to go or what to do. By the end of the day, we were completely exhausted from "folding linen," scrubbing cabinets, and dodging doctors.

By the end of the second week we were beginning to under stand what real study was. We had classes, tests, and more classes. "How in the world could we learn all those medical terms?" "How would we be able to do all those procedures?" These and many more questions were frequently discussed. We trudged over to Wilmington College five days a week to tackle "Uncle Zeb" and to try to learn some Anatomy and Physiology.

For nine months we struggled, studied and ate roast beef and dressing twice a day and Nursing Arts between meals. Of course we had our fun on the side, especially hiding "Josephus" in the beds and closets, making mysterious phone calls to each other, having our midnight snacks on the roof, short-sheeting beds, putting salt in them, and "ramshacking" the rooms.

Thanksgiving we received our long-awaited for uniforms and we went on duty feeling less like "greenhorns".

Finally the great day arrived and on May 25, 1956, we were capped at the First Christian Church. At last we felt that we were well on our way to becoming a nurse.

Now we were working eight hours a day and oh! how our feet ached! Some of us went to surgery and learned how "mean" those old doctors were, while others pushed diet carts, and emptied bedpans.

We will all remember Dr. Graham's "hot appendices", Dr. Sale's T & A's, Dr. Hare and Hooper's Cystos, Dr. Fales' hemorrhoidectomies, Dr. Walker and O'Quinn's hysterectomies, Dr. George Johnson's endo and laps, and Dr. Koonce's gastrectomies.

Somehow we pulled through that summer. Then it was back to cramming for tests again. The new class came in and, Alas! we were no longer considered to be at the foot of the ladder. At last September 19 arrived and we received our Junior bands. From then until April we worried, planned, sold hose, sponsored a dance, and baby-sat to finance our Junior-Senior Banquet.

Next came our vacations and immediately afterwards our class split up and a third of us went to Raleigh for our Psychiatric training. Didn't we "live it up" though! Some of the girls came back with diamonds on their fingers and stars in their eyes, others with "a little band of gold", and a startling few returned who had still not found their "one and only".

In September, the marriage rule became effective, and it seemed that the whole class was getting "hitched".

Now we are Seniors and publishing the annual is foremost in our minds. We have sold doughnuts, candy, hot-dogs, Christmas cards, wrapping paper, ads, and anything else you can name. That's when everyone wanted to go the other way when they saw us coming, but determination kept us going. With the help of our doctors, bless their cotton pickin' hearts, we were off to a good start.

As graduation grows nigh, we are thinking of the future, and happily, but regretfully, leave, taking with us the memories of three wonderful, unforgettable years.
